

# ميجن ميمين

In brief, if you could look down from the moon, as Menippus once did, and see the innumerable broils of mortals, you would think you were looking at a great cloud of flies or gnats quarreling among themselves, warring, plotting, plundering, playing, frisking, being born, declining, dying. It is downright incredible what tumults, what tragedies can be stirred up by such a tiny creature, so frail and short-lived. -**Desiderius Erasmus**

From out of the **Ov Moi Omm** universe, **Irama Gema** (Malay for Echo Rhythm) initially began as an experimental collaboration hailing from **Southern Ontario (Canada)** and features a member from **Ov Moi Omm**. After the first release (“**Experiment I**”), **Irama Gema** has continued on as a project exploring ethnic electronic experimental soundscapes.
